

Upgrade to a modular rheometer and save 20%

The Thermo Scientific™ HAAKE™ RotoVisco™ 1 Rheometer and HAAKE RheoStress™ 1 Rheometer are retired. Now is the perfect time to upgrade to the next level of advanced QC rheometer and save up to 20%.* The HAAKE MARS™ iQ Rheometer series enables a simple and flexible workflow for rheological quality control measurements.

5 reasons to upgrade to a HAAKE MARS iQ Rheometer

- 1 **HAAKE Series 1 Rheometers are retired**—Trade-in for continued secure and reliable rheological measurements.
- 2 **Simplified, convenient operations**—Simplify operations and prevent measuring failures with built-in “assist” functions—automatic recognition of quick coupling measuring geometries and temperature modules.
- 3 **SOP operation at your fingertips**—Control the HAAKE MARS iQ Rheometer either with HAAKE RheoWin™ PC Software or launch measuring methods directly from the multilingual color touchscreen.
- 4 **Extended analytical capabilities**—A sensitive, normal force sensor enables texture or tribology measurements. A broad range of measuring geometries, temperature modules, and measuring cells are available for flexible application-specific requirements.
- 5 **Seamless methods transfer**—HAAKE RheoWin Software compatibility ensures easy transfer of measurement routines.

Eligible instruments

HAAKE RotoVisco 1 Rheometer
HAAKE RheoStress 1 Rheometer

Compatible upgrade

HAAKE MARS iQ Rheometer
HAAKE MARS iQ Air Rheometer
